Homepage

SPRINT 1 — FIGMA

SPRINT 2 — BUILT

- Category chips went from five to seven the list agreed in the API contract. Work and Healthcare dropped, Paperwork, Food, Community and Places added.
- “Popular Posts” became “Latest stories” as we have no popularity data.
- AI teasers removed from the cards AI is Sprint 3 work.

A Ferry Trip to Suomenlinna

3.9.2026

Today, I visited Suomenlinna, a beautiful historic sea fortress near Helsinki. I first went to Helsinki city centre and took a ferry to Suomenlinna. The journey took around 15-20 minutes and offered beautiful views of the sea and Helsinki. If you have a valid HSL AB-zone ticket, there is no need to buy a separate ferry ticket. Suomenlinna was peaceful and beautiful, with historic buildings, stone walls, walking paths, and amazing sea views. It was a wonderful short trip!

My First Visit to Oodi Library

2.9.2026

Today, I visited Oodi Library in Helsinki, and it was my first experience visiting such a huge library. I was amazed by its beautiful design, peaceful atmosphere, and open spaces. I would suggest that anyone interested in reading books and exploring new things should visit Oodi. It is much more than just a library, with study areas, books, computers, and places to relax. My visit was a wonderful and memorable experience.

My Visit to Delhi Rasoi: An Indian Food Experience in Helsinki

12.8.2026

Today, I had the opportunity to visit an Indian cuisine restaurant in Helsinki called Delhi Rasoi, and it was a wonderful experience. As someone who enjoys Indian food, I was excited to try the restaurant and experience its flavours. The food was delicious and full of flavour. It was a great experience to enjoy Indian cuisine while living in Finland. I would recommend this restaurant to anyone who enjoys Indian food and is looking for a good dining experience in Helsinki.

Category

Select a category

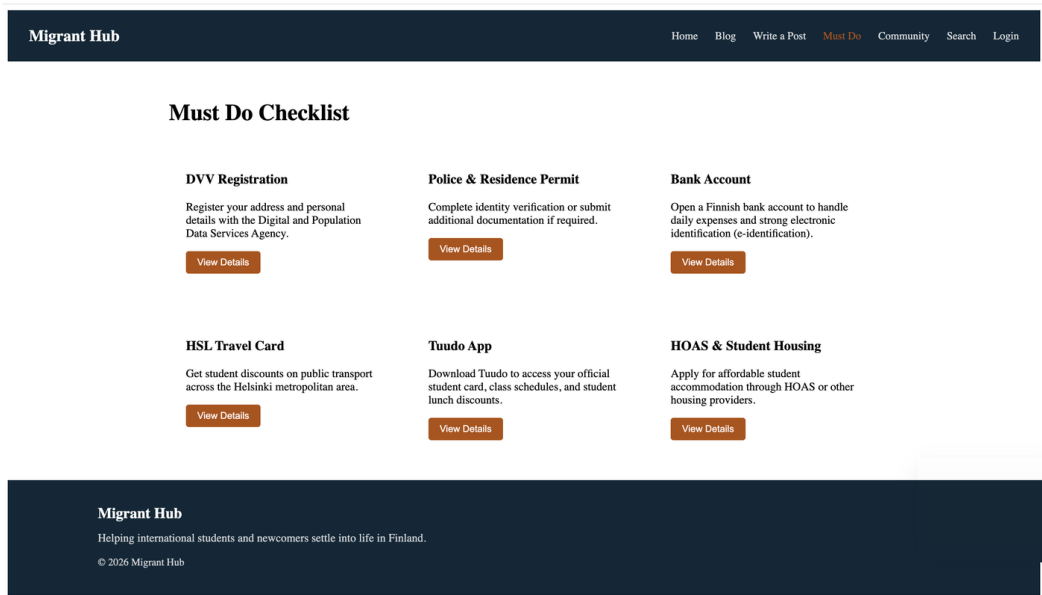

- A Category selector was added category is a required field on every post in the API contract and the prototype had no way to set it.
- The 512-word counter counts down instead of up.
- The separate Publish Confirmation frame was merged into the form.

Must Do — overview

SPRINT 1 — FIGMA

SPRINT 2 — BUILT

- A sixth item was added: HOAS & Student Housing.
- Tag lines replaced by a “View Details” button, so it is clear each card has a page.
- These are the same six items seeded into the database by the backend team.

DVV Registration

Information about registering with DVV in Finland.

What is DVV?

DVV means Digital and Population Data Services Agency. When you move to Finland, you need to register that you are living there. DVV helps you register your personal information and address in Finland.

Who needs it?

Students who arrive in Finland with a residence permit need to register themselves with DVV. You can also apply for a Vero tax card.

What documents do I need?

- Residence permit, if you have one
- Passport
- Finnish address
- Study certificate or another certificate showing that you are a student in Finland

How long?

You can book an appointment online. You can also go to the DVV office and take a queue number. The waiting time can be different, so it is to verify. When the registration is complete, DVV will send you an email to confirm that you are registered.
